-Lebanon-

There comes a song from prairie plain.
Lebanon, old Lebanon;
And waiting voices catch the strain
Lebanon, old Lebanon;
Her rolling legs, and shady ways
Where errants dream, and sing their lays;
Old trysting place of college days
Lebanon, old Lebanon.

McKendree towering on its crest
Lebanon, old Lebanon;
A mecca in the knowledge quest
Lebanon, old Lebanon;
Her lore, and story ages old
By many a hearth-stone gladly told
The ties that bind us multifold
Lebanon, old Lebanon

When dimness o'er all lustre strays
Lebanon, old Lebanon;
And voices faint, no longer praise
Lebanon, old Lebanon;
Oh! angels rift the veil between,
That weary eyes may catch the scene;
Edens eternal campus green
Lebanon, new Lebanon.

F.C. Brown.

TO PROFESSOR E. B. WAGGONER

Who, through both clouds and sunshine, has helped in piloting McKendree onward and upward to the heights of Success; who, with an unflagging interest in students, has unceasingly sought to advance them morally and intellectually; who still stands with his sword girt about him—one of McKendree's strongest chieftains;

THIS BOOK IS AFFECTIONATELY DEDICATED

Professor Edward B. Waggoner

There is perhaps no McKendree student of the last quarter of a century who does not look back with love and pride upon McKendree's "grand little man," Professor E. B. Waggoner. He is the most typically McKendreean figure about McKendree's campus. His very presence carries an atmosphere that recalls all that is best in McKendreean tradition. First as a student and later as an instructor, he drank in the McKendree spirit as he studied and taught side by side with such men as President Robert Allyn, Professor Deneen, Professor Swahlen, Professor Jones and other lesser lights of that golden age in McKendree history. No McKendree student of recent years can look back upon his college life without pleasant thoughts of Professor Waggoner, and he cannot think of Professor Waggoner without being concious of a soft spot in his heart for the old school of which the professor is a part, and for which he stands as a representative in so many ways.

The high regard in which Professor Waggoner is held by his former students is such as to warrant the alloting of this space to a brief sketch of his career. He was born in Godfrey, Illinois, in 1852, of Scotch and German ancestry. He was graduated from McKedree College with the degree of A. B. in 1875. Later he was given the degree of A. M. by his alma mater. As a student Professor Waggoner made a fine record in his classes, and was popular with his fellow-students. His present-day after dinner speeches on such occasions as reunions of his literary society and the alumni associations, are the delight of the college community, and he is especially delightful when talking of his college days in McKendree.

After leaving McKendree, Professor Waggoner attended various normal schools and specialized in the study of the sciences in order to further prepare himself for his chosen profession, that of a teacher. He taught several years in the public scholls of Illinois, and in 1881 was made an instructor in McKendree College. With the exception of one year spent as professor in Southwest College, Winfield, Kansas his service at McKendree has been continuous. He has been brought into close touch with the students not only as teacher of science, but also in his capacity as fiscal agent. Those who went to Sunday School also will remember him as Sunday School Superintendent, a position in the Lebanon Methodist Church which he has held for twenty-four years. Professor Waggoner has been twice married. His first wife was Miss Ella L. Sargent, a graduate of McKendree. His present wife was Miss Ella M. Cowen. One of Professor Waggoner's children has already completed the course at McKendree, and two are now students.

As a teacher Professor Waggoner is widely and favorably known. For many years he has been a popular instructor at various teachers' institutes. His skill as an instructor is attested by all his former students, one of whom, who left McKendree fifteen years ago, recently wrote, "Professsor Waggoner is the best teacher I ever had, and I believe he is the best teacher in the world.

Foreword

In behalf of the class of 1913 we present the first volume of the McKendrean to the faculty, students and alumni of the college. We trust that those who read this book may find much therein that is pleasing and of value.

In preparing this book the editors recognize the fact that they are establishing a precedent for this institution. They earnestly hope that such precedent may be improved upon in coming years.

That the result as a whole is not perfect we are well aware, and whatever we have overlooked or omitted may not be due directly to a lack of interest or done intentionally. Believing, however that our readers are as considerate of our errors as they are appreciative of our accomplishments, we present to them this book, the product of our endeavor.

Greeting

If we offend it is with our good will.
That you should think, we write not to offend,
But with good will. To show our simple skill,
That is the true beginning of our end.
Consider then, we write but in despite.
We do not write as minding to content you,
Our true intent is, all for your delight.
This is not given, that you should here repent you.
The pages are at hand; by what they show
You shall know all that you are like to know.

The Makers of this Book

VIEWS AND SCENES

John Francis Harmon D. D. was Graduated in public schools; teacher in public schools 6 years; student in Normal schools at Carbondale and Danville, Ind., 5 summers. Joined Southern Ill. Conference 1882; was graduate from Garrett Biblican Institute 1888; spent 2 summers at Harper's Hebrew school; one year in special work. Served the following charges: Newton, Bible Grove, Chauncey, York House, Hawthorne, Metropolis, Mt. Carmel, Mt. Vernon, First Church, East St Louis. Member of four General Conferences; eight years a member of the Book Committee. President of McKendree College 1908—

EDWIN PERCY BAKER was born in the hamlet of Mechanicsville, Ashtalenla Co., Ohio. Son of a Methodist Minister. After finishing the public school, two years were spent in Grand River Institute, three years in the North Eastern Ohio Normal College and three years at the Ohio Wesleyan University, where the degree A. B. was obtained. Commenced teaching at the age of 17, first in district school, then in a graded school, then tutor in the above named Institute. After graduation in 1893 took up the work of the Latin and German Departments in McKendree College. After three years in this work, one year was spent in travel and study in Europe. Upon returning to McKendree the work assumed was German and History which it has remained to the present time. In 1898 this college conferred the A. M. degree.

ROBERT ALLEN GILES was born 1886, Peoria, Illinois. Was graduated from Hedding College, 1909, with the degree B. S., having majored in Mathematics and Science. During his college life he took special interest in military activities, bearing non-commissioned officers' orders in the organizations of his college and state. Spent two summer terms in Chicago University, specializing in Mathematics. Professor of McKendree 1909—

J. C. DOLLEY was born in a Methodist parsonage at New Hampton, Va. 1865. Attended public school in Va. and four years at Prince Frederektown, Md. Took the Academy and College courses at Randolph-Macon, Va. graduating with A. B. in 1887, and several years later took postgraduate work in the same institution in French, Philosophy, English and Greek, for the master's degree. Taught public school in Md. Was president of Alleghany Collegrate Institute, W. Va. 1888-90. Taught Greek and Latin in Rockville Academy, Md. one year. For three years taught Latin and Mathematics in Randolph Macon Academy, Va. For four years taught Greek and Latin, and two years served dean of the faculty of Hogsett Military Academy, Ky. For one year was Principal of the Kentucky Wesleyan Academy. Professor of Latin in McKendree College 1899.—

E. B. WAGGONER, A. M. entered McKendree in 1860; was graduated in 1875. Taught school, was graduated in the Pioneer class of the Chautauqua Scientific and Literary Circle; spent one year at Valparaiso, Indiana. Professor, one year in Southwest Kansas College. Specialized in Science at the School of methods, Chautauqua Lake New York. Has conducted Institute work in Southern Illinois for many years. Professor of Science in McKendree 1880.—

WILLIAM FLINT THRALL A. B. McKendree College, 1901; A. M., ibid., 1902. Two years of graduate study in the University of Illinois and the University of Chicago. At present pursuing courses in the latter school looking toward the degree of Ph. in English. Tutor in Spanish McKendree College 1899-1900. Teacher Public Schools in Blue, Arizona 1902-04. Reporter for World's Fair Company, St. Louis, 1904. Principal McLeansboro (Ill.) High School 1904-05; Principal Flora (Ill.) High School, 1905-08. Head Department of English, Decatur (Ill.) High School, 1908-09. Professor of English, McKendree College since 1909.

WILLIAM C. WALTON graduated from Brighton (Ill.) High School, 1886; taught two years in public schools; entered McKendree 1888 receiving the following degrees, A. B. 1892, A. M. 1894, Ph. D. 1897. Joined Southern Illinois Conference in 1892. Was pastor two years at Huey, Ill. Spent one summer term in Chicago University specializing in Greek.

The Senior

Seniors

RALPH SMITH CONDREY, A. B.
Lebanon, Illinois.

Platonion: Treasurer '12, 13; Athletic Editor McKendrean '13.

"Speech is great but silence is greater."

WILLIAM M. GRAHAM, B. S.
Greenville, Illinois.

Platonian: Pres. '13; Basket Ball, Tennis; Intersociety Debate '13.

"A monumental heap of simplicity and good humor."

ERNEST K. CRISP, A. B.
Jonesboro, Illinois.

Platonion: Pres. '12, '13; Sec'y Y. M. C. A; Prohibition Association; Religious Ed. McKendrean '13.

"I was born to loftier things."

AGNES GILEAD HILL, A. B.
Lebanon, Illinois.

Clionion: Domestic Science; Clio Quartet; Music Editor McKendrean '13.

"It is not art, but heart which wins the wide world over."

DAISY LEONORA GLENN, A.B.
O'Fallon, Illinois.

Clionian: Social Ed. Headlight; Humorous Ed. McKendrean '13.

"Whose heartstrings are a lute."

CLARK WEBSTER HOAR, A. B.
Mounds, Illinois.

Platonion: Editor-in-Chief McKendrean '13 State Treasurer I. P. A., Y. M. C. A; Editor Headlight '12; Pres. P. A; Athletic Association; Editor Platonian Reminiscent History.

"It makes a man big in soul and mind to love something bigger and better than himself."

Seniors

THOMAS RALPH ISAACS, B. S.
New Douglas, Illinois.

Philosophian: Business Mgr. McKendrean '13; Headlight Staff; Y. M. C. A.; Pres. Athletic Association; Basket Ball; McKendree Quartette; Intersociety Debate '13.

"He sits high in all the people's hearts."

BESS L. MARKMAN B. S.
Olney, Illinois.

Clionian: Pres. Y. W. C. A. '12.

"Just call me a classic scholar, let that be my praise."

RICHARD CLYDE MYERS A. B.
Belleville, Illinois.

Platonian: Pres. '11, '12, '13; Y. M. C. A; Intersociety Debate '10, '11, '13; Literary Editor McKendrean '13; President of Senior Class.

"I am not on the role of common men."

GERTRUDE AGNES PESOLD B. S.
St. Louis, Missouri.

Clionian: Domestic Science; Art Editor McKendrean.

"With all thy learning, be sure know thyself."

CLAUDE NEWTON STOKES A. B
Crossville, Illinois.

Platonian: Pres. '12, '13; Y. M. C. A; Basket Ball; Track; McKendrean Staff; Headlight Staff.

"Though he be blunt, I know him passing wise."

CLARK ROLAND YOST A. B.
Alma, Illinois.

Philosophian, President Y. M. C. A '12; Headlight Staff; McKendrea Staff; Intersociety Debate '11, '13; Prohibition Association; Carson Oratorical '11, Bryan Essay '12.

"I will tear a passage through the flinty ribs of this hard world."

Seniors

EMMA BERRY
Pleasant Hill, Illinois.
(Two-Year Course)

Domestic Science, Clionian; Chemistry Laboraty Tutor '11, '12, '13.

"Deep versed in books."

VERLA GILES
(One-Year Course)

Clionian; Domestic Science.

"My mind to me a kingdom is."

HAZEL EVELYN DOPHEIDE
East St. Louis, Illinois.
(Two-Year Course)

Clionian; Expression.

"A daughter of the gods, divinely tall."

PRISCILLA RUTH KITTLE
Wakefield, Illinois.
(Two-Year Course)

Clionain; Piano.

"Her modest look a cottage might adorn."

MAYME LEAH GRIFFITH
Brownstown, Illinois.
(Three-Year Course)

Clionian; Piano.

"She smiled as she sat by the table,"
"With a smile that was child-like and bland."

BLANCHE MOORE
Trenton, Illinois.

Two-Year Course, Expression.

"The noblest mind the best contentment has."

Seniors

EXPRESSION
ORATORY ELOCUTION

MISS MARION McCRAY

Studied at Lawrence College, Appleton, Wis.; at Chicago Training School; and at Cummock School of Oratory, Northwestern University.

Expression Department

The Department of expression in McKendree College was opened in the Autumn of the year 1909, with Miss Rhoda Brockman, of East St Louis, as instructor. Five pupils enrolled at the beginning of the term. Early in the year 1910 the first recital, consisting of six readings, was given. At the end of the year twenty-one students were enrolled. The department is now in the third year. The members of the first class graduated were: Harriet E. Carlin, Lebanon; Alice E. Loy, Lebanon; Irma Day Otwell, Plainview; Ethel Stephenson, Marion; and Stenna Harmon, Lebanon. Miss Brockman was succeeded by Mrs. A. C. Bancroft. The present instructor is Miss Marian McCray, of the Cumnock School of Oratory, Northwestern University.

The course in expression covers three years. It aims to prepare the student for reading, public speaking, teaching, appreciating good literature. Man's first duty is to develop self. The department aims to help the student in this regard, that he may not rush into life unprepared. Furthermore the purpose of this course is not only to teach students to entertain, but also to interpret life. The emotions, the mind, the voice, and the body are developed. This training is helpful in every day life, since it gives a pleasing conversational voice, ability to speak with ease in public, self-possession.

The work of the department includes: Correct method of breathing, to produce openness; freedom, and purity of tone; voice placing; overcoming of nasality and other defects. Monologue, description, impersonation, dramatic and epic narration, dialects, humor, pathos, are mastered. Pronunciation and enunciation, extemporaneous speaking, Bible and hymn reading, and orations are taught. The individuality of each student is fostered and strenghtened. Numerous recitals give the student opportunity to appear before the public.

To all who have attended public speaking contests, exhibitions, and debates before and since the department of expression was organized, it is known that a very marked improvement has been made in all these performances and the largest if not the sole contributing factor is the department of expression. Miss McCray is giving universal satisfaction. Her training at perhaps the very best school of oratory in the country has given her a particular fitness for building up the expression department in a school like McKendree where have been trained not a few of the most successful men and women in public life today.

Those in the graduating class of this year are: Jessie North, Lebanon; Ruby A. Windmiller, Pleasant Hill; Hazel Dopheide, East St. Louis; Blance Moore, Lebanon.

Expression Students

Gradnates

Dopheide, Hazel, Palmyra.
Moore, Blanche, Trenton.
North, Jessie, Lebanon.
Windmiller, Ruby, Pleasant Hill.

Undergraduates

Britton, Ethel, Mounds.
Bundy, Charles A., Thompsonville.
Carson, Paul E., Loami.
Ebbler, Edward, Godfrey.
Elston, Valentine W., Noble.
Farris, Mayme, Vienna.
Gann, Alice, Ganntown.
Gentry, Lillian, Mascoutah
Giles, Verla, Wataga.
Griffith, Isabelle, Brownstown.
Hall, Tessie, Brownstown.
Harper, Thomas E., Norris City.
Hayes, Rolfe M., Casey.
Kennedy, Mary E., Litchfield
Lamp, William E., Lebanon.
McPherson, Wm. H., Lebanon.
Morrison, Katheryn, Burnt Prairie.
Petty, Bert, Claremont.
Sonner, Emilee, Nobie.
Smith, Marguerite, Lebanon.
Warren, John Logan, Sandoval.
Zimmerman, Arthur, Alton.

Debate

There is held annually an interesting debate, Plato and Philo participating. The question for debate this year was, "Resolved that all corporations doing an interstate business should be required to take out federal charters" (constitutionality granted, and a federal license not to be available as an alternative plan).

Decision in favor of the negative.

Negative:—Peters, Graham, Myers.

Expression Contest

Last year two gold medals were awarded in the expression department, the Keisling Gold Medal to Mary Stephenson, the Rhoda Brockman Gold Medal to Elizabeth Alice Loy.

The gold medal offered by Mrs. Rhoda Brockman Little was this year awarded to Hazel Dopheide.

Bryan Essay Contest

The Bryan Gold Medal is established by Hon. William Jennings Bryan in honor of his distinguished father, Judge Silas Lillard Bryan, who graduated at McKendree in 1849.

The Annual goes to press before the day of awarding the prize so we can only give the winner of last year. The subject of the essay last year was: "The System of the Recall as applied to Municipal and State officials." The medal was awarded to Clark Yost.

Affirmative:—Eaton, Yost, Isaacs.

McKendree has just reason to be proud of her Literary Societies. Many men and women in public life today owe their training to these societies. Since their organization there have been about 5,000 members, more than half of whom are still living. There are three societies: Clionian, Platonian, and Philosophian, the Clionian for ladies; which hold weekly sessions. Once each month there is held in each society an open session to which the public is invited. The societies are under the exclusive control of the students belonging to them, subject to certain regulations of the board of Trustees and the Faculty.

No person is permitted to become a member of any of these societes until he has regularly matriculated with the President of the College, or identified himself with one or more of its departments. Regular requirements are made upon the membership in the form of essay writing, debate, declamation, oratory, and parliamentary practice. All these proceedings are conducted in accordance with parliamentary usage, and the generous and spirited rivalry to excell each other and win public favor proves a most wholesome simulus in bringing out the latent faculties of all connected therewith. The college recommends that all students identify themselves with one of these societies.

Platonian Literary Society

1849 - 1913

The Platonian Literary Society was founded on the night of April 21, 1849. It was founded by sixteen young men of McKendree College who felt indisposed to take up their abode with the Philos. This indisposition was probably due to the timidity of the young men, probably to the overcrowded condition of the Philos, or probably to the inspired foresight of the noble work that has been so well done by the Society. Whatever the cause of its foundation the Platonian Literary Society has accomplished a work in the world that stands without an equal.

With a deep feeling of gratitude and reverence I here submit the names of the sixteen gentlemen who began such a noble institution: Charles W. Jerome, St. Louis, Mo.; David W. Bryant, Waterloo, Ill.; George W. Caldwell, Franklin, Ill.; Joseph W. Drury Waterloo, Ill.; Henry C. Fike, Mascoutah, Ill.; Thomas O. Springer, Edwardsville, Ill.; Alonzo Thompson, High Prairie, Ill.; Alexander Van Winkle, Franklin, Ill.; Thomas S. Casey, Mt. Vernon, Ill.; William Chance, Waterloo, Ill.; Isaac B. Jack, Nashville, Ill.; Michael Mummert, Waterloo, Ill.; James H. Riggin, Lebanon, Ill.; William Schwartz, DuQoin, Ill.; William M. T. Springer, Edwardsville, Ill.; and William K. Thomas, Belleville, Ill. All of these gentlemen, except Bryant, Fike, Jerome, and Van Winkle, have gone to explore the mysteries of an unseen world.

The Platonian Literary Society was conceived and born amid opposition, for it at once became the only competitive opponent of a like organization, which had for years been the "monarch of all it surveyed", but Plato has run her race for three score and four years without a handicap. She has done her work well.

About 1700 men have walked "Wisdom's Way" and have enjoyed its benefits. Today over one thousand of Plato's sons are scattered throughout the world and are to be found filling places of responsibility and trust in every honorable avocation of life. Platos are to be found at the top of every profession and in every legitimate business. Space forbids us to make mention of all her sons here! but in the various avocations of life we will find the following: A. C. Bernays, world-wide physician and surgeon; Nelson S. Cobleigh, an eminent journalist; Gen. J. H. Wilson, who was second in command of the American forces during the Boxer uprising; Hon. J. A. Halderman, first U. S. Minister to Siam; C. P. Johnston, Ex-Governor of Missouri, and reputed to be the greatest criminal lawyer west of the Alleghanies; Wesley Merritt, Major-General U. S. A., and a host of others who are famous in state, national, and world-wide affairs. It is not an idle boast to say that Platos have invaded nearly every position of merit and gained every distinction of honor..

At present the Society is in a splendid condition. She has an active membership of about a half hundred. The Platos play an active part in the present life of McKendree. Plato still arouses noble aspirations. She still moulds young lives. She takes boys—diamonds in the rough—and transforms them into capable men who render service to the world on the farm, in politics, at the bar, in the ministry, and in every other walk of life.

Plato's door is open to the honest, sincere young man, who wishes to avail himself of her benefits. With her glorious past, bright present, and brilliant prospects for the future we say, "Platos may come and go; but Plato will go on forever."

Philosophian Literary Society

1837-1913

The Philosophian Literary Society has the distinction of being the oldest literary organization west of the Alleghenies. It has a proud record of seventy-six years, having been organized January 10, 1837.

In 1849, twelve years after the founding of the society, Philo's representation in the Illinois Legislature began with the election of the late Edward Abend of Belleville. From that time on Philo has had its representative in every session, excepting two, of the General Assemblies of Illinois. Since 1857, the society has been continuously represented on the Circuit Bench of Illinois, and there has been but one session of Congress since 1863 that has been without its Philo member or members in either the Senate or House of Representative. Hon Charles S. Zane, who, as Chief Justice of Utah, handed down the first decisions which sounded the death knell of polygamy, was a Philo. Hon. George W. Smith, who recently died at his home in Murphysboro, and who is said to have had the record of the longest continuous service of all Illinois representatives to Congress; Hon. John Baker, member of Congress from Illinois, and Minister to Venezuela; Brig- General Jessie H. Moore, member of Congress and Consul General to Peru; Hon. Wm. A. J. Sparks, former Commissioner of the General Land Office; Hon. Bluford Wilson, formerly United States District Attorney from the Southern District of Illinois, and afterward Solicitor of the United States Treasury, are among the distinguished men on the roster of Philo. Among the men who are now or have been recently high in the Councils of State are: Judge Wm. M. Farmer, Senator L. Y Sherman, Hon. Walter S. Landen, Ex-Governor Deneen, Hon. George W. Wall.

Among our men prominent in other fields are several of the greatest editors of the West. Chief of these was John Locke Scripps, one of the founders of the Chicago Tribune, and originator of the famous Scripps-McRae League. Mr. Scripps did more to give tone and character to the Chicago Press and to elevate its standards than any other man connected with the early or middle period of Chicago news-paperdom. Wm. E. Hyde, formerly editor of the St. Louis Republic, and Isaac N. Higgins at one time editor of the San Francisco Call are also among our prominent representatives in the newspaper field.

Philos have served as College Presidents and Professors. Illinois, Missouri, and Florida have had their State Superintendent of Public Instruction from the ranks of Philo. There are Philo merchants, lawyers, ministers, bankers, physicions.

AINT IT FINE?
LIFE IS FADING FAST AWAY
MUSIC DEPT
NEW MATERIAL QUICKLY CONVERTED

Piano Department

Prof. Frank M. Church came to McKendree Conservatory four years ago, after two years of study in Paris. Before going abroad he spent four full years in the Oberlin Conservatory and two more in the New England Conservatory, Boston where he was graduated in June 1900. As an organist he has had varied experience in many parts of the country. He is somewhat of a traveler having been in Africa, Mexico, England, Germany, Switzerland, Italy, Spain, Belgium, Nova Scotia, British Columbia, Quebec, from Maine to Florida, and from San Diego to Vancouver up the Pacific Coast. He is eminently successful as a piano teacher as pupils in many states can testify as his work in McKendree has shown. He has a wonderful ear for music. By careful practice and earnest study he has developed a splendid memory. He believes with Mendelssohn that "the best in music is only just good enough." He is acquainted with the best books on music and has heard all the great artists. He is fully equipped with technic experience and ability to build a splendid school of music, and that is what he is doing here. A glance at the long list of recitals given since he came is sufficient evidence. Pupils of all ages take part with equal success. He believes that "it never is a loss of time to take time to do a thing well," and "that good practice is never lost." Hence his success as a teacher and player.

PROF. FRANK M. CHURCH

The McKendree Conservatory now offers splendid courses in the study of music. Its work is being watched with intense interest. The course requires six terms of harmony, five terms each of counterpoint and ear training, three of history of music and ensemble playing with frequent appearances on recital programs to obtain a Teacher's Certificate. A recital is also required of those receiving Diplomas. Two recitals have been given by all graduates receiving Diplomas in Piano this year. This list of Diploma graduates includes Misses Esthel and Ethel Morgan, Maunie; and Fern Shafer Carlyle. Those receiving Teachers' Certificates this year are Misses Amy Turner and Mayme Griffith, Brownstown, and Ruth Kittle, Newton. From the list of students it is evident that the school is drawing from nearly all parts of the state. Those who have appeared on recitals as pianists this year are: Misses Ruth

Clionian Literary Society

1869 - 1913

In the fall of 1869 ladies were admitted to McKendree College. Those attending the first term, feeling the need of some special means of culture determined to attempt the formation of a literary society. After some preliminary steps had been taken the society was formed December 6, 1869, under the name of the Clionian Literary Society, with the following persons as charter members: Misses Edith Flint, Carrie Thrall, Jennie Roberts, Kate Parker, Maggie Gilbert, Addie, Georgia and Hattie Floyd, Pet Hypes, Nellie Raymond, Elvira Robinson, Nettie Ross, Martha Toney, Alice Valentine and Jennie Thatcher.

Of these charter members, only four are living: Mesdames Carrie Thrall Campbell, Jennie Roberts Kerr, Alice Valentine Edwards Jennie Thacher McBride. Mrs. Edith Flint Thrall had the honor of being the first President.

A constitution and by-laws were drawn up which with few exceptions still govern the Society. The initiation fee at that time was $1.00 but later was changed to $3.00. The first motto was "Jure Divin's," but was soon changed to "Virtute et Labore," our present motto. Our pin is a gold arrow crossed by a scroll on which is engraved the society motto. It was first made in silver, larger than at present, but was afterwards made in gold.

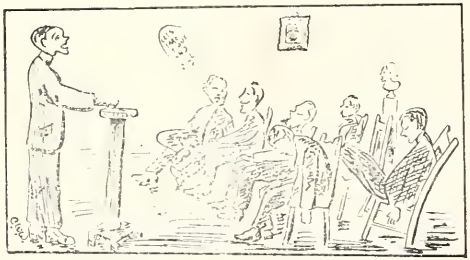
Clio Hall has also seen many changes. It was at that time only the eastern half of the present hall, the floor was covered with hemp matting, the room was warmed by a large old fashioned heating stove, and lighted with oil lamps. But in later years it was enlarged and now has modern furnishings, including a piano which was purchased recently.

The first public exhibition was given May 6, 1870. Since then two public exhibitions are given annually. The program consists of music, orations and readings.

The Clio Quartette of this year is composed of: Miss Bertha Webb, First Soprano; Miss Eathel Morgan, Second Soprano; Miss Agnes Hill, First Alto; Miss Mary Ball, Second Alto.

The Clio of today is composed of fifty-two enthusiastic members, who are determined to make this the most successful year of her history.

Clio is a literary society, but it is also much more than that. It provides a wholesome social life for the girls, and teaches them clear and concise expression of thought.



Vocal Department

Miss Lathchiepell Myrick, McKendree instructor in vocal music for the last three years, is unusually well equipped both by nature and training for the position. Realizing the importance of a thorough training, Miss Myrick early laid the foundation of her musical education at Belmont College, Nashville, Tenn. She also completed the classical course of that institution receiving her diploma in 1902. Since her graduation from Belmont she has continued her vocal studies with some of the best instructors in the country. Among her teachers were: Miss Edith Freeman of Mary Connor College, Paris Tex; Mr. John Towers, St. Louis; Mrs. Mayme Searbrough-Fowler, New York; and Mr. Sullivan A. Sargent, New England Conservatory, Boston. The past two summers she has taken a special course in Public School Music in the American Institute of Normal Methods at Boston and Chicago. Miss Myrick has been uniformly successful in the various church positions which she has held. Both as a soloist and director her rare ability to enter fully into the spirit of her work has proved her capability. She is proficient in the interpretation of compositions and has a complete appreciation of the theory of music. The department has grown rapidly under the direction of Miss Myrick. Last year the first time in the history of the department diplomas were granted to Miss Florence Alexander, Belleville; Bess Carter, Freeburg; and Rose Ella Jones, Sumner. Each of the young ladies gave a successful recital in the Spring Term which is required of all seniors.

MISS LATCHIEPELL MYRICK

A Gold Medal Contest was also instituted and has become an annual affair. Miss Florence Alexander was the winner in the first contest. This gold medal was given by Mrs. T. A. Wilson, Lebanon. A Scholarship Medal was also given the same year to Miss Bess Carter making the highest average for the year.

A two year course in Public School Music was added last year. The object of this course it to prepare students for positions as supervisors or teachers of music in the public schools.

The regular course in voice culture is outlined for four years. The vocalists used are Marchesi Part I. II. and III;

Vaccai's Studies; and Lamperties Studies in bravura singing. Songs from the best English, Italian and Modern composers are studied, also concerted pieces from oratorios, and scenes and arias from the best German, French and Italian operas. The department now has the largest enrollment in its history and is as follows:

Voice Students

Post-Graduate

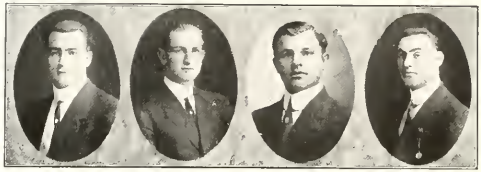
Alexander, Florence, Belleville.

Graduates

Morgan, Eathel, Maunie.
Morgan, Ethel, Maunie.
Simmons, Elsie, Medora.
Webb, Bertha, Ewing.

Undergraduates

Archibald, Myrtle, O'Fallon.
Bachmann, Magdalena, Lebanon.
Behymer, Ruth, Lebanon.
Britton, Vivienne, Mt. Vernon.
Carter, Fay, Cypress.
Clark, Frank, Newton.
Cover, Olive, Tunnel Hill.
Cover, Sylvia, Tunnel Hill.
Crump, Mabel, Flora.
Cummins, George, Olney.
Daubs, Mabel, Olney.
Dopheide, Hazel, Palmyra.
Farris, Mayme, Vienna.
Ferguson, Jewel, Buncombe.
Follis, Jessie, Johnston City.
Gann, Alice, Ganntown.
Gentry, Lillian, Mascoutah.
Goldman, Max, Chicago.
Gordon, Agnes, O'Fallon.
Griffith, Mayme, Brownstown.
Haines, Maude, Rose Hill.
Heslet, Guy, Mt. Carmel.
Hill, Agnes, Lebanon.
Holdner, Blanche, O'Fallon.
Hughes, Mrs. L. D., Lebanon.
Isaacs, Ralph, New Douglas.
Kittle, Ruth, Newton.
Mittler, Helen, Golconda.
McCormick, Glen, Bone Gap.
McCorkle, Lula, Vienna.
Morgan, Ila, Grantsburg.
Morrison, Katherine, Burnt Prairie.
Owens, Lura, Fairfield.
Perrin, Maude, Mascoutah.
Randle, Tora, Freeburg.
Ruth, Walter, Summerfield.
Shafer, Fern, Lebanon.
Seed, Nell, Carlyle.
Smith, Lester, Lebanon.
Sonner, Emilee, Noble.
Sudbrack, Anna, Belleview.
Walton, Ruth, Lebanon.
Whittenburg, Wayne, Vienna.



THE McKENDREE MALE QUARTETTE

Morris, Collinsville; Jessie Follis, Johnston City; Fern Shafer and Nellie Kahlert, Carlyle; Emma Reuss, Bellville; Ethel and Ethel Morgan, Maunie; Nelle Dee, Herrin; Ruth Kittle, Newton; Emile Sonner, Noble; Alice Stewart and Marie Miller, Metropolis; Edgar Brockhahn, Margaret Bechtold, Paula Tiedemann and Dolly Welch, O'Fallon; Amy Turner and Mayme Griffith, Brownstown; Bertha Webb, Ewing; Jewel Ferguson, Buncombe; Hannah Wilkin, Kell; Mr. Armin Hofsommer, Breese; Sylvia and Olive Cover, Tunnel Hill; Maude Haines, Rose Hill; Madge Ross, Reno; Katherine Morrison Burnt Prairie; Ila Morgan, Grantsburg; Guy Oldson, Florence Weber, Magdalena Bachman, Veneta Anderson, Flo Crowder, Ruth Chamberlin, Ruth Behymer, Sadie McBride, Harriet and Ruth Ford, Elsie Jansen, Marie Kolb, Anna Schmitt, Lillian Harmon and Edith Dennison, Lebanon.

Others registered for a term or more are: Misses, Blanche Holdner, Irene Hemmer, O'Fallon; Mae Gregory, Cave-in-the-Rock; Marie Coddington, East St. Louis; Glenn Dorney, Sumner; Margaret Brainard, Metropolis; Lura Owens, Fairfield; Maxine Charmness, Carbondale; Hilda Schroeder and Maudie Perrin, Mascoutah; Frank Clark, Newton; Verena Langenwalter, St. Jacobs; Stella Chapple, Hilda Blum, Velma Weber, Mamie Rock, Edna and Louise Schmitt, Velma Greer, Marion Waggoner, Bernice Sayre, Wilma Harms, Laura Traband, Stella Bonham, Lebanon; Nell Seed, Billett; Willard R. Dewhirst, Noble; Alice Gann, Ganntown; Fay Carter, Cypress; Nettie Lukey, Noble; Erma Rauschkolb and Estella Baldus, Belleville; Marea Johnson, Newton; and Marie Mueller, Summerfield.

Mr. T. I. McKnight won the director's Gold Medal in 1911. Last year Miss Maude Haines and Miss Fern Shafer, Carlyle, were each given a medal after twice playing to a tie. In 1911 Miss Sadie McBride won the W. C. Daumueller Harmony medal. Last year it was won by Miss Ruth Morriss, Collinsville. Miss Florence Weber won the T. A. Wilson medal for pupils under fifteen years of age. Miss Haines received a medal for splendid work in counterpoint. The graduates in 1910 (the first year under Prof. Church) were Misses Lucile Britton (now Mrs. T. I. McKnight), Mt. Olive; Laura Burgard and Viola Eicher, Lebanon; Mabel McCormack, Bone Gap; and Mr. Harold Benton, Ashley.

The following year Misses Birdie Robertson, Buncombe; and Mollie Cox, Louisville. Last year Miss Maude Haines, Rose Hill, received a diploma, and Misses Mattie Dollahan, Lawrenceville; Beulah Hall, Table Grove; Alma Holland, Pocahontas; Georgia McCommons, O'Fallon, and Edith Shaw, Lebanon, received teachers' certificates.

On December 9, Miss Ruth Morriss pianist and Mr. George Cummins, tenor gave a highly successful recital. They were ably assisted by Miss Farris, reader. On March 10, Misses Turner and Kittle gave a piano recital that was highly spoken of. Miss Sonner, reader and Mr. Isaacs, bass, added greatly to the success of the evening.

On March 17, Miss Webb gave her senior vocal recital. She is undoubtedly one of our best singers. She had the assistance of a splendid pianist in Miss Dee who plays with a finesse that approaches the artist. Miss Farris, as a reader is always entertaining.

On April 21, Miss Reuss played a most difficult program in a highly artistic manner. Miss Follis never sang better, and Miss North gave a reading that was greatly enjoyed.

On April 28, the Director's Contest was given. This always draws one of the largest crowds of the season. Eight of the advanced pupils played. It was piano playing par excellence.

....

Other recitals:

May 10—Misses Webb, Farris and Mr. McCormack.

May 12—Misses Shafer, Alexander and North.

May 17—Misses Weber, Bachmann, Walton, Windmiller and Mr. Brockhahn.

May 19—Misses Simmons, Dennison and Farris

May 26—Misses Eathel and Ethel Morgan and Dopheide.

May 27—Misses Ethel and Eathel Morgan and Moore.

June 6—Conservatory Commencement Exercises.

Piano Students

Post Graduate

Haines, Maude, Rose Hill.
Reuss, Erna, Belleville.

Graduate (Diploma)

Morgan, Eathel, Maunie.
Morgan, Ethel, Maunie.
Shafer, Fern, Carlyle.

Graduates (Teacher's Certificate.)

GRADUATES IN PIANO

McCALLISTER GREER CUMMINS LIENESCH
MISS BALL NELSON MISS SLIGH (Instructor) PARKER HOAR
MOSS FOEHNER

THE MESS HALL

THE CLIO QUARTETTE

Violin Department

Miss Alexa Calhoun Sligh, Director of the Violin Department McKendree College Conservatory. Graduated with A. B. degree from Mansfield Female College 1905; graduated in piano and violin, Beethoven Conservatory; piano and theory under A. T. Epstein; violin under Christopher Jacob, 1906. Charter member of "Chopin Club," St. Louis, 1906.

She was instructor in violin and piano at Mansfield Female College 1906-07; special student in Louisiana State University during the sessions of 1908-09, 1909-10, 1910-11. First violin in Louisiana State University Orchestra; charter member of "The Music Club," Baton Rouge Louisiana. Three years study teaching violin and piano, Baton Rouge, Louisiana.

MISS ALEXA CALHOUN SLIGH

Violinist at Sea Shore Camp Grounds, Biloxi Miss., season 1910. Concert engagements as violinist in Louisiana, Mississippi, Texas, Missouri and Illinois.

Director of the Violin Department McKendree College Conservatory 1912. A new department of Violin was added to the McKendree College Conservatory in 1912. Under the direction of Miss Sligh the first year has been a most successful one. Pupils received instructions in private lessons, ensemble classes, and orchestral work. The String Quintet and the McKendree Orchestra of fifteen pieces furnished numbers for the Recitals and special occasions throughout the year and filled a long-felt need in the College life.

She formed a "Music Club" and was looked upon as a musician of the truest type by the music lovers of the city. Miss Sligh brings to her work qualities which by inheritance, training and experience place her in the foremost rank as a teacher.

Violin Students

Charbulak, Olga, Clayton, Mo.
Henderson, Bland, Watson.
Long, Eleanor, Summerfield.
McAllister, Ivan, Carmi.
Morrrison, Kath., Burnt Prairie.

Smith, Ella, Marion.
Stulbrack, Anna, Belleview.
Villhardt, Arnold, Summerf'ld

DOMESTIC SCIENCE

Domestic Science Department

In the three years since it was opened in the fall of 1910 the Domestic Science department has grown into one of the best equipped and most important branches of the institution.

The real growth of the department began when the Joint Board at its session in June 1911 voted to the department the three ground floor rooms of Pearson Hall. Mr. T. A. Wilson agreed to raise sufficient funds to equip the new home which was remodled according to plans submitted by Miss Villa Sprague, head of the departmnet. In September 1911, the furnishing and equipping of a combined sewing and class room, a dining-room and adjoining pantry, a food and cooking laboratory were completed.

MISS VILLA SPRAGUE

The first year sewing and house construction and decoration were taught with difficulty as a much needed library and equipment were lacking but September 1911 began a new epoch for the work. The newly prepared department rooms gave opportunity for extending the work and the strengthened science department gave support. In September 1912, a gasoline gas plant and a microscope for the domestic science and agriculture departments added greatly to their assets and and the installation of an art department gave more support to the house decoration and dress designing work. The department now ranks second to none of the minor colleges of Illinois and the middle west. The enrollment has increased from 29 the first year to 48 at the present time. Six students have been graduated and all expect to teach the work. Each June an exhibition of work has been given and minor exhibitions, sales and social affairs during the year have proved very interesting and the deparments have become a factor in all phases of the college life.

A two year certificate and a four year degree course are offered. The course is planned to give such instruction in Domestic Science and art as seems an important part of the general education of every young woman and aims, by the teaching and practicing of principles, to develop resources and ability and to inspire an interest in the home.

Cooking, including a thorough study of foods, their selection, preparation, preservation and service; dietetics, a study of diet in health and disease and under all conditions of work; sewing and careful study of materials from production to consumption, with special attention to the question of dress; the architecture, sanitation, decoration, furnishing and care of the house; history of the Home Economics movement and a course for teachers make up briefly the outline of work followed. Related work in the literary and science department is required and also high school or equivalent credits for comple-

tion of the course. The plan for future work is to intensify that already given and keep it up to date in every way. New books have been added each year to the library and the best magazines are used largely for reference reading.

Miss Villa Sprague, head of the department, received her professional training at the University of Illinois. She received the dregree of Bachelor of Arts from the latter institution in 1910. Her preparation work was done in the Joliet Township High School.

Miss Sprague came to McKendree from Jacksonville, Illinois, where she held the position of dietetian at Passavant Hospital. Besides the arduous work of organizing the department and bringing it to its present high standard she has been a considerable factor in the advancement of Domestic Science in Southern Illinois. Miss Sprague has delivered many adresses before various Institutes and Domestic Science Clubs in this section of the state. She was one of the speakers at the 1912 meeting of the State Farmer's Institute in Centralia.

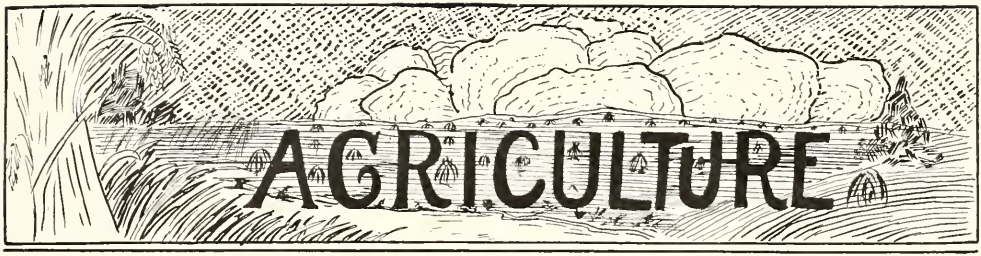
McKENDREE LABORATORY

McKENDREE CAMPUS



AGRICULTURE

PROF. G. A. CROSTHWAIT

PROF. GEORGE R. NEW

Agricultural Department

This new department of McKendree College was added during the fall of 1911. At that time we were without equipment or funds but had friends and a firm conviction that there was a real demand for Agriculture in McKendree College. The results for the first two years have proved this to be true.

Through the untiring effort of Prof. F. C. Grannis and others, during the year 1911-1912, a great deal of money was raised for the department and many gifts other than money were secured. A fine modern chemical laboratory was equipped largely through the generosity of Ex-Governor Charles S. Deneen.

During the winter, a two weeks Short Course was held which proved to be so popular that it was voted to make it an annual affair. About 100 students attended one or more of the sessions. During this first year there were quite a large number of students who took the work in Agriculture for one of the terms and some few who specialized in the work.

The opening of the present year found us better equipped than ever with strong probability of a heavier enrollment. An additional instructor, George R. New, has been added to the teaching force to take charge of the dairy and animal husbandry work. This, together with the soils and crop work, has made possible a broad and well balanced course.

The present year has been a very successful one and sixty-five students have taken work in Agriculture alone, for one or more terms while more than a hundred have been enrolled counting the allied sciences.

The second successful short course was held during the fall with several instructors here from the state university.

PRESENT INSTRUCTORS

Prof. F. C. Grannis resigned near the close of the fall term to take up work in the Agriculture College at Ames, Iowa. He was succeeded by Prof. G. A. Crosthwait who commenced work at the beginning of the second term.

Prof. Crosthwait is a man of matured years, with broad experience and thorough training. He is a graduate of Illinois University and has had considerable experience as a teacher in public schools, in county Agricultural school work and as an experiment station worker. He is thoroughly practical having had considerable experience and is running a small farm of his own on scientific principles at the present time. McKendree may consider herself fortunate in having such a man as head of the Agricultural department.

Associated with Prof. Crosthwait in Agriculture is George R. New, of Emporia, Kans. Prof. New has recently finished work in Illinois University and Kansas State Normal College. His work here has demonstrated that he is an able teacher and thoroughly prepared for the work which he is called to do. At the present time Prof. New is handling part of the science work.

SCOPE OF WORK.

We aim to fill two needs: first, to furnish thoroughly prepared and equipped men for teachers or for Agricultural positions of trust, or for successful work upon the farms. Second, we offer to farmer boys with little schooling a chance to come in and get some practical work that their practice on the farm may be more successful.

To this end we have planned a two years course leading to diploma and a four years course leading to B. S. degree in Agriculture. Both of these courses presuppose a high school education or its equivalent. At the same time there are certain courses open to special students who have not the fundamental education or who do not care for the degree or diploma.

In these courses we have had, and hope to have a great

many more farm boys who will come in for one, two, or three terms and who will then return to the farm with higher ideals and better ideas of how to farm economically and scientifically.

EQUIPMENT AND WORK

We are constantly adding to our equipment. This year through the efforts of T. A. Wilson we have our own gas plant to furnish gas for the laboratory. Through other gifts we have added a new science demonstration table, compound misroscope, and have for use incubators, model silos and other things. Practical work is done where possible and it may be another year we shall have our own farm. We receive numerous samples of milk from farmers to be tested, advise feeding rations, analyze soils and have made the department of real use to farmers as well as students. One of the State Experiment fields is located here and is available for our work. Our graduates are in great demand and get good positions.

OPINIONS OF OTHERS

Dr. Cyril G. Hopkins of the University of Illinois who was with us last fall said he would rather have a boy of his spend the first two years at McKendree than at the University, because the instruction here would be better. Of course, students come in close contact with the instructors here.

Mr. H. E. Young of the Farmers' Review was astonished that so much could be accomplished in so short a time, and complimented us upon the work achieved and organization of the department. We predict a marvelous growth and bright future for the Agriculturial Department of McKendree College.

Art Department

SARAH E. SEABROOK

It has been my privelege to put into the McKendree College this year the foundation for an Art Department, and having tried to place it on good strong first principles of art training, I sincerely hope it shall grow to be a great blessing to the college, and the community, in so much, as it shall give a clearer vision, for the wonderful beauty surrounding us; made by an all ruling God, and drawing us closer each day to the Creator of all things.

The enrollment has been good this year, but far more to be proud of, is the strong work done by each student and the influence on each life as a balance for the conventional side of life of the refinement of such an appreciation of the beautiful.

To be able to look and see with a trained eye, and an understanding intellect the objects we see about us. We have offered a course in drawing and painting in all mediums, china, leather, metal and pottery, pen and ink, lettering, illustrations, etc., and have a fine start for equipment in some 24 good casts.

We have also had a juvenile department, believing we cannot begin this training to early in life. Two classes which correlate with Domestic Science and Botany have also been held. From a practical, industrial standpoint, I hardly know of a career in which drawing wouldn't be useful, if not absolutely necessary, for the very simple reason that it teaches one to see correctly, to remember what one has seen, and to give form to thought.

ATHLETICS
M

Brief History of Athletics in McKendree

In this little sketch we will not try to cover any of the territory of athletical history before 1908, which is so well covered by the "Pig Skin" excluding the time that McKendree was inactive in athletics. In 1908 the board as, the result of a petition, granted intercollegiate basketball, and in 1910 all other games were allowed excluding football, and since that time the greatest success has been accomplished, for we have not only put out the best teams on the court, track and diamond but have based athletics on a good foundation as to finances and management, the latter success we give credit to L. W. Smith who thru his untiring efforts interested those who had authority to establish the McKendree Athletic Association. Just this year we were admitted into the league of minor colleges of the state by a unanimous vote of every college in the league. This consequently places us in a position of recognition which is state-wide in its scope.

CYRUS STOKES GENTRY, A. M.
Athletic Director

Born Eldorado, Ill., May 14, 1892. Was graduated from McKendree College 1911. Received scholarship to Illinois U. 1911-1912. Director of Athletics in McKendree College 1912.

Previous to the year 1906. McKendree had no recognized department of athletics. The students conducted their own athletic work under the supervision of a faculty member. They had various teams but the chief sport at that time was football. The history of athletic activities before 1906 is given in detail in the "Pigskin" and need not be repeated here.

It was in the fall of 1906 that the athletic department of McKendree College was organized and a Director was chosen who was to devote his entire time to this work. The man selected was Professor B. E. Wiggins of the University of Pennsylvania, who had had several years of successful experience in athletic work before coming here.

Professor Wiggins was an expert in his field and he showed his ability by establishing a department in a short time which compared favorably with almost any of the minor colleges. During his first two years, McKendree was not allowed to compete in intercollegiate athletics, but by his untiring efforts in arranging society and class teams he aroused the athletic spirit of the school and when intercollegiate competition was again permissible, in 1908, McKendree had a well-trained group of men capable of making a creditable showing.

During the time in which there was no inter-institutional competition, basketball was the leading sport. Society teams were organized the first year and Plato won the championship. The members of the winning team were: Wood,

Dee, Pfeffer, Miller, Massey with Cummins, Sayre and Farmer, subs. In 1907, the following year, it was thought best to discontinue the society teams and independent teams were selected. They were the Romans, who won the championship, the Meteors, the Trojans, and Greeks, whose place was later taken by the Rovers. The line-up of the Romans was G. C. Gentry, Warren, R. Pfeffer, V. Shick, E. Sayre and C. Farthing.

Professor Wiggins also held an annual Track and Field Day for the students only in which medals were awarded to the three highest point winners in 1906 were C. A. Earon, F. Howard, G. C. Gentry; in 1907 the medals were won by R. Miller, F. Howard, and E. R. Sayre.

As stated above, intercollegiate teams were again allowed in 1908 and as a result the athletic interest in the school increased in leaps and bounds. A basket ball team was put into the field for the first time in McKenree's history. The team was captained by "Froggie" Pfeffer with Philips, Warren, Burguard, and Shick as team-mates and Large, G. Gentry and E. Sayre as substitutes. A very good showing was made considering that it was their first year of competition. About fifty per cent of the games were won and the chances for a winning team the next year were very bright. Some of the players failed to return, however, and the team in 1909-10 was composed of new men with one exception. Philips the captain was an experienced player. The others on the team were C. Gentry, E. Sayre, O. Walters, Andrews and Massey. Only mediocre success was had that year and it was not until the following year that McKendree began putting out the winning teams that she has had for three years The addition of new material made possible the selection of a well-balanced team. The team had an average of .833. The players were Stokes, C. Gentry, captain, Eicher, Ebbler, Beedle and Isaacs. At the opening of school the next fall, all of the playtrs were back except Gentry and Eicher, whose places were filled by "Boots" Willi and Isaacs. This is the combination which has made so splendid a record in 1911-12 and 1912-13 when their averages were . and .875 respectively.

Baseball was confined to games among our own students until the spring of 1910 when a few games were played. The team was composed of L. Walters, Murdock, R. Pfeffer, E. Sayre, LeCrone, C. Gentry, O. Walters, G. Gentry and R. Sayre. The team in 1911 included the following: LeCrone, captain, Trousdale, Rode, Peters, Endicott, Kershaw Beedle, Wilton, Campbell, and Gentry. A short schedule was played but the season was unsuccessful. It was during this year that Hypes' Field was made ready for use. In 1912 a longer schedule was played and the team picked from the following: Hill, captain; Willi, Gibson, Graham, Cummins, Schuwork, Endicott, Peters, McHugh and Wilton.

Base ball has not been a leading sport at McKendree, but the establishment of an Athletic Association through the efforts of "Dad" Smith, and put our finances on a firm basis, and an effort is being made this year to get a start. In a year or two our base ball team may be counted on to win just as regularly as the basket ball five.

Track and Field sport have always been the best class at McKendree. In the last three years several meets have been held and never have we been defeated in a dual meet. A list of our best performers would include men like LeCrone, Ray, Beedle, Stokes, Smith, Morgan, Campbell, Willi, McHugh and Moore.

Water sports have been confined to competition among the students themselves. Water polo teams have been organized and the aquatic events have been keenly contested.

Tennis has had much recognition by our students and several good tennis players have been developed. It was not until last year, however, that inter-institutional matches were arranged.

Wrestling has been taught at various times but it has been only among local followers. Medals were awarded in 1911 by the Director to W. R. Spragg, the heavy-weight champion and to C. H. Dickman, the light-weight champion.

McK

SECOND ROW—Graham, Smiley, Beedle, Moore.
THIRD ROW—Loy, Willi.

Athletics 1912-13

BASKET BALL

McKendree's leading sport is basket ball and for the last five years a team has been in the field which has made an enviable record. When the call was made for basket ball candidates last fall, every one of the members of the winning team of 1911-1912 reported for work. They were Beedle, this year's captain, Stokes, last year's captain, Willi, Isaacs and Ebler. The selection of the team was consequently an easy matter. Several new men reported and some of last year's "scrubs" tried hard for the team, but the line-up would have remained unchanged had it not been for several mishaps to the regulars.

"Bill" Beedle, the captain, is an athlete known to all McKendreeans and to many of his opponents for his athletic prowess. His speed, floor work, and scoring ability make him an important part of the offense as well as the defense.

Stokes, center, who has been high scorer for the last three years was unfortunate in receivnig a severe injury which kept him out of the early games. He had played but one game when he was again forced to leave the team because of another accident. He recovered sufficiently to get into the last few games and was just regaining his 1912 form when the season closed. His graduation will leave a vacancy which will be hard to fill.

"Tommy Ralph" Isaacs has held down the position at right forward for the last two years and has made his presence felt in every game because of his remarkable eye for the basket. During Stokes' absence he was the mainstay of the offense, and it is a great blow to the team to lose two such men in one year.

"Roots" Willi, the other forward, is the most spectacular player that has ever tossed a ball here. He is a midget, barely five feet high, but his speed, nimbleness, and ability to follow the ball have made him invaluable as a player. He rarely makes many points in a game but his floor work enables Stokes and Isaacs to roll up their high scores.

Ebler was a wonderful guard last year but he has improved this year. His ability to watch two or three men at once and get the ball out of the crowd make it possible for the other members to devote their attention to the attack. This was largely responsible for the high scores made in some of the games. His headwork in noting the style of offense of the other team was excellent and he was quick to take advantage of it.

Harmon, Smiley and Loy form a trio of substitutes, whose speed and floor work have been seldom equaled at McKendree. Graham was an excellent guard and would have probably have broken in on the team had we not been so well fortified of that position.

These nine players were awarded basket ball "Ms".

The pospects for 1913-1914 are very bright. Our admission into the Illinois Intercollegiate Athletic Association will insure a good schedule and participation in the state tournament.

SCHEDULE 1912- 1913

McKendree 44—Royals 12
McKendree 29—C. BC. 5
McKendree 38—Cen. Wesleyan 18
McKendree 21—C. B. C. 15
McKendree 16—Cen. Wesleyan 25
McKendree 49—Ind. State Nor. 16
McKendree 45—Winona Ag. Col. 20
McKendree 62—Bun. Hill M. A. 23

Totals:
McKendree 304, Opponents 124
Stokes 97.

INDIVIDUAL SCORES

Isaacs, 93	Loy, 14
Beedle, 32	Smiley, 14
Harmon, 22	Willi, 12
Ebbler, 18	Condrey, 2

The reserves won three games and lost two. The girls won one and lost one.

BASE BALL

Base ball has never had until this year sufficient financial support to make it successful. A strong schedule has been arranged and it is hoped that the team may make a good showing. Much of the success of the team depends upon the development of a reliable pitcher. The line-up of the team cannot be definitely determined at the present time but it will be chosen from the following: Gibson, captain, Willi, Heiligenstein, Graham, Peters, Whittenberg, Caldwell, Pigott Wilton, Endicott, Pfeffer, Schuwerk, Campbell and J. M. Harmon.

The schedule is as follows:

April 19, Carlyle at Lebanon.
April 26, C. B. C. at Lebanon.
May 3, Belleville Com. College at Lebanon.
May 10, Shurtleff at Lebanon.
May 16, Bunker Hill M. A. at Bunker Hill.
May 17, E. I. S. N. S. at Charleston
May 28, C. B. C. at St. Louis.
June 7, E. I. S. N. S. at Lebanon.

TRACK AND FIELD ATHLETICS

McKendree has always had good track teams and this year will probably be no exception. Three meets have been arranged. The most important is of course, the state meet at Peoria in which it is hoped that our athletes may win several points. The addition of new material has helped considerably but the decision of Stokes to quit the cinder path will leave a wide gap. The team will probably be selected from the following: Willi, captain, Beedle, Campbell, Smiley, Moore, Caldwell, Whittenberg, and Goldman. Several others are trying for the team but their ability is unknown at the present writing.

TENNIS

Tennis enthusiasts find plenty of enjoyment on our excellent courts and many promising players are developing. Our tennis team composed of Beedle and Graham are to enter the state tournament at Peoria May 23. We are expecting much of this team this year, especially Graham, who played such excellent tennis last season.

AQUATICS

McKendree has two good bathing and swimming pools within easy access and the lovers of acquatics have plenty of opportunity to enjoy themselves and become acquainted with this branch of athletics. Water polo has been the favorite game in this sport.

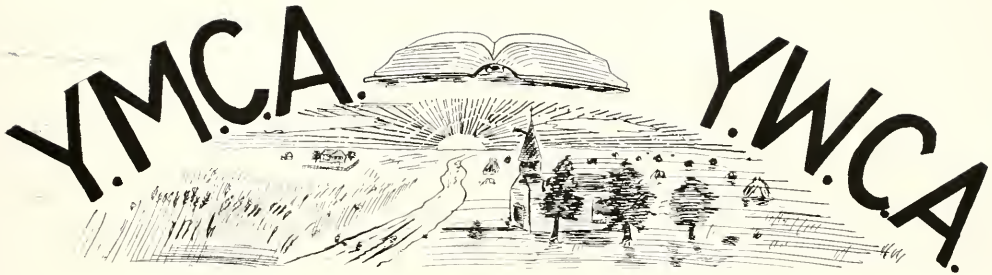
Bottom Row—Weiderhold, Beedle, Brewbaker, Gould.

SNAP SHOTS
RUSTICATING



Y. M. C. A.

The Y. M. C. A. endeavors to train its members to live principles rather than to profess doctrines or creeds. The practical phases of life are especially emphasized. The needs of men of today and the modern methods of dealing with men and leading them to lines of righteousness are some of the live subjects with which this organization deals. Our aim is Christain manhood.

Y. W. C. A.

The McKendree girls find aid for Christain development in the Y. W. C. A. This organization endeavors to equip its members for useful religions work both during their college career and after college days are over. The need of Christain women workers in foreign fields is one of the principal subjects kept before the Y. W. C. A. members. Special emphasis is placed upon the wisdom of living lives which are both purposeful and useful.

THE PROHIBITION LEAGUE

The Prohibition League is the remnant of the Aetholia League of Acient Greece. For 2000 years this League lay buried in the perils of revolutions and wreckages of wars. It was resurrected to its present form in the latter part of the nineteenth century. The Ancient League was composed of the half civilized tribes of the mountain regions of Central Greece. The present League differs from the early League in that, it is composed of all the bottle holders of both the mountains and plains of North America. This League has chosen for its emblem a quart bottle; its motto is "Personal Freedom;" and its watch word war cry is "Liberty, License and Booze."

A Song of McKendree

On a hill-top in the forest
In the Mississippi Valley,
Near that great and mighty river
Near the Father of Waters,
There they built for us a college,
There they made a school of learning,
There, a home for truth and wisdom,
And they builded for our glory.

To the east a verdant prairie,
To the south a little city,
To the west a silver streamlet
And a graveyard to the northward—
Where the dead of years are sleeping,
Waiting for that Glorious Morning,
For the sounding of the Trumpet,
And the call to life Eternal.

Just beyond the silent graveyard—
Where a rich man built a mansion—
There are springs of gushing water,
Flowing water full of sulphur.
There are wheat-fields all about us;
There are fields of corn and clover;
Cattle feeding in the meadows,
For the land is lent to farming.

Once the Redmen owned this region,
When they pitched their tents upon it,
When they wandered o'er its hill-sides,
With their bows and arrows hunting:
When the deer roamed in the forest,
And the turkeys in the woodland;
When the wolves howled in the gloaming
And the panthers screamed at midnight.

Four score years and five have vanished,
Since they built McKendree College—
Like a guide set in the desert,
Like a beacon on the ocean.
Ere the virgin soil was furrowed,
Or the trees hewn down by wood-men,
Or the passing highways opened;
Then they built McKendree College.

Come and live a season with us.
Learn the wisdom of the ages,
Learn the tongues of acient nations,
And their hidden arts and secrets.
Learn how kingdoms rose and conquered,
And how empires waned and crumbled;
Learn how unknown worlds were opened,
And how heroes came to greatness.

Learn the story of the raindrop,
And the language of the flowers;
Know the nature of each creature,
On the land and in the ocean.
Watch the stars that shine from heaven
Learn to follow in their circuits,
Hear the singing of fair maidens,
And their music in the morning

How we love McKendree College,
With its campus full of shade trees;
Oak and Ash and Elm and Walnut,
Locust, Cedar, Pine and Maple—
Here the lovers gentle wander
When the light of day is dying,
And they hear the south-wind wooing,
Mingled with their fond caresses.

O, ye students of McKendree!
O, ye strong youths and fair maidens!
Live for all that's true and noble,
Keep unstrained McKendree's banner.
Fields untrodden lie before you,
Heights unclimbed look before you,
For the voice of all Creation
Calls you to the paths of Duty.

The Professional College Boy

That the professional boy is coming to the front rapidly there is no question.

The purpose of this little lesson is to put the outward and visible signs of higher thought within the reach of the high class. The inward signs count for little, as they cannot be depended upon. They are like the chicken-pox and measles—you cannot tell which it is until the doctor arrives. No industry on earth offers such tempting opportunities as that of the Professional College Boy. The work is light and the pay or rather the remittances from papa are constant.

The studies are the lightest and there are no examinations.

To begin college first procure a good suit of clothes which will be the "hall mark" of your position of life.

The shoulders should be three times the width of the waist and must cast a shadow like the top of the letter "T."

Don't let the mere trifle of being provided by nature with narrow shoulders worry you, for the tailor carries college shoulders in stock.

The trousers should be of that vague general sort which are profanely described as the "coming and going" variety.

The hair must be long and should grow in a dispirited sort of style in the back, nearly cover the ears and in front should be combed into the eyes.

Get a dinky little cane, a bull-dog pipe and the smallest cap that can be procured in the college colors.

These three items are especially necessary. The only study absolutely necessary is to perfect yourself in college yells. Procure the little volume "Hinds and Noble," the best and latest compendium of animal husbandry ever published. If a faculty member should come to an athletic meet, don't scare the poor fellow by staring at him.

Read all the late books of jokes and the sporting sheets of the daily papers.

If the Professional College Boy would carefully follow this lesson it would be unnecesary for the college to include a surgical ward where ideas may forcibly be inserted into the head.

In all candor we will state that those who do not wish to be Professional College Boys all their lives need not take this course.

Mirabile dictu!

A dignified Senior named Bess
Was exceedingly fond of fine dress,
  She still goes with Winter,
  Altho it is spring,
And thus backward does everything else.

There once was a poetry muse
Who went off like a fire-cracker fuse,
  With swiftness appalling,
  When genius was calling,
But for me she has not much use.

Senior Swan Speech

(Spoken by the President at a Senior Meeting.)

Seniors, we are about to say farewell to McKendree and her kindred associations forever. Forever! That's a long time Seniors. Did you ever stop to think of that? Such a thought causes queer flutterings around our hearts. But comrades, though we are sad, we must be brave for think of the sadness unexpressed in the hearts of the faculty at the thought of our departure. (Cries of yes, yes.) They will miss us, and the students who come after can never take our places. We have occupied a unique position in this college. We are the faculty's pets. (Applause.) So now Seniors the thing for us to do is to cheer each member of the faculty in the best manner possible. Speak kindly to them, and tell them not to grieve as those who have no hope but to take courage. Tell them we are going out to bring honor to them by our glorious achievements. Oh, be kind to the faculty. (Tears.) The faculty has had reason for loving us, for who have recited in classes better than we? Did we ever flunk (to use a vulgarism) in class. Did we I say? Well let it go at that. We have acted our part nobly and throughout the coming years the professors will point with pride to the class of 1913 as an example of goodness and supreme nobility. (great and prolonged applause.)

But others will miss us, dear ones. Some of us have formed tender ties that might have been closer if time had permitted. In fact there might have come conjugal felicity. But now those fellowships are to be broken. Oh, it is hard! (Tears, and sympathetic looks towards Bess, and Stokes.)

Yes, Seniors, our farewell is a sad one. They all will miss us for we mean so much to them. Why, unless some kindly hand comes, the undergraduates may make shipwreck without some enobling influence. May they watch out for the reefs!

And, now, Seniors, it becomes my sad duty to say farewell to you all. Let us grasp hands for the last time, let us look each other in the eyes once again, frankly, earnestly, and then let us take our departure quietly from the building so that we may not disturb the other classes.

"Dear old McKendree College
Is it not your funeral knell
When the Senior Class of '13
Gives to you its last farewell."

(Spattering of tears as the Seniors shake hands in parting.)

THE JUNIOR PSALM

The faculty is my boss, I shall not deny it. It maketh me sit down in the classroom, it leadeth me to chapel. It restoreth my pocket book after it hath deducted tuition and athletic fee. It leadeth me in the paths of hard thinking, delighting in my misery. Yea, though I crawl day and night I will fear flunking, the examinations they do anything but comfort me. It preparest hard questions for me from the midst of its knowledge, it exposeth my ignorance before mine classmates. My sorrow runneth over. Surely Lysias and Livy shall follow me all the days of my life and I will fear the Logic examination forever.

THE SENIORS' CREED

I believe in the noble senior class, of dignity and worth, and in McKendree's seal, worn only and alone by ourselves.

I believe in the seniors' oration, learned dissertation, solving the momentous questions of the nation, I believe in our eventual evolution into honored alumnae, and in that long sought for diploma, received on the second Thursday in June, in the year of our Lord, nineteen hundred and thirteen.

I believe in our honored class, like which there is no other, in the envy of the Juniors, the adoration of the Sophomores and the humble reverence of the Freshman.

Amen.

PSALM I.

Blessed is the student that walketh not in the path of the cemetery, nor standeth down town in the post office, nor sitteth in the Rest-a-whyle. But his delight is in the jokes of Dr. Harmon and in his advice doth he meditate day and night. And he shall be like a man that standeth well in the eyes of the Profs, that bringeth his memorized lesson to every class; his mind shall not be a blank for what so-ever he sayeth shall flavor of wisdom. The frivolous students are not so ,but are like those who go horseback riding upon a small pony. Therefore the frivolous shall stand under judgment before the Faculty upon the green carpet. For the faculty knoweth the way of the studious, but the way of the frivolous shall perish forever from the face of the campus.

There is a young lady named Glean
Who is rather sarcastic with men;
  She is graceful and nice,
  But a chip off the ice,
And she treats us quite cool now and then

Another young maiden named Hill,
Who is seldom known to be still,
  Gave her fellow some grub
  Which she'd cooked for the dub;
He ate it and now he is nil!

THE LONG AND SHORT OF IT.

JUST FRIENDS.

A Letter Written to the Underworld

His majesty, Beelzebub, was looking over a copy of the "Progressive Thinker" when an asbestos message was put onto his fork. "A report from Brimstone", cried this delighted Satan, as he proceeded to read:

Lebanon, Ill., Oct. 3, 1912.

Dear Nick:

Found McKendree as you said, and have made many acquaintances who are in line to make an extended call at your headquarters later; but a list of them, for the present, is impossible.

As you say, the chapel exercises are the old routine—the same "yesterday, today, and forever," while the only possibility for a change is a revolution of the students which, sorry to say, is not likely to occur.

The next edition of your official paper, the "Progressive Thinker", is to be Y. M. C. A. number. Copies are to be sent to the preachers to inspire them to attend meetings. This should not cause the least anxiety in your mind for I myself shall attend the writing of the articles.

The row between Mr. Philo and Mr. Plato, both jolly friends of mine, was over the pretty maiden, Miss Clio. These gentlemen will visit your popular resort later.

If you can spare some imps for secretaries, I should like to get the names of all the recruits.

Obediently yours,

Sulphur de Fire,

Mgr. Hades.

EICHER RANCH.

A Parody

(With Apologies to Bryant)

To him who in the love of woman holds
Communion with her Friday nights, she speaks
A various language, for her gayer hours
She has a dish of fudges, and a light
Cut from the matron, and she glides
Into the reception room, with a sweet
And graceful bearing, that steals away
His heart key, ere he is aware. When thoughts
Of the last parting hour come like a blight
Over his spirit, and unwelcome sound
Of the ten-thirty bell, and matron's voice
Make thee shudder and grow sick at heart—
Go forth, onto the piazza, and list
To the maiden's words, until from the hall
Comes that same voice—yet a few days, and thee
The all-enchanting Dorm, shall see no more.
In all its course unless thou shalt depart
Even now when the word is given.
So live that when thy summons comes to join
The innumerable caravan, which moves
To the cold, cold outer world, where each shall hie
Him homeward to the task of study,
Thou go not, like the rejected lover
Soured on the world, but, sustained and soothed
By her unfaltering trust, goto thy room,
And place her picture on the table
Before thee, and sit down to pleasant dreams.

Psalm No. 23

Time—9:30-9:55 A. M.
Place—Chapel Building.

And I saw in the front of the Chapel a bunch of dignitaries, sitting in the front row.

And I saw a strong angel proclaiming with a loud voice, "Where is the man who spendeth not a cent on pipes and tobacco, but goeth and buyeth him a book and readeth therein, that he may pursue knowledge?"

And no man in the chapel nor on the roof over the chapel, nor in the library under the chapel was able to say "Here am I, Lord, take me."

And I wept much, because no student was worthy.

And one of the Profs arose and said, "Behold I will be in my classroom, from 1:15 to 1:30 to receive the board money of the students, for lo! there are those who owe many dollars, and their name is legion. And verily I say unto you, if they pay not up, we will all come out even in the hole."

And another Prof. ariseth and sayeth, "Owing to the fact that Adam was created before Eve, man is more important than woman. And so it shall be in the afternoon of this day, that the women's gym class shall not meet, but the baseball squad shall assemble."

Then ariseth a Prof. who sayeth in dulcet tones, "There will be a recital to-night at 7:15. Will the young angels please assist the piano to the platform?"

Then they sang a new song, saying, "Oh! plant my feet on higher ground!"

And I listened, and beheld and lo! there were many present, but the seats of the absent were beyond number.

And the strong angel arose and said again with a loud voice, "The cattle on a thousand hills. And worthy is the man who hath a goal in life and striveth thereto, but the man who knoweth not what he is about to do is as a ship without a rudder, which buildeth a house upon sinking sand and steereth to destruction. For a man is as a Geneva watch, the maker maketh him for a purpose. Yea, verily, if I were a young man, I would be somebody. Oh! the minutes that a man wasteth when there are ten thousand books below in the library to be read, and he readeth them not."

And when he had prayed, they all arose and departed thence.

There once was a Senior named Gertrude
Who was a great crank upon pure food;
She took lots of D. S.,
Made many a mess,
And succeeded in making much poor food.
(With apologies to Miss Sprague of D. S. Dept.)

Aspirations

DR. HARMON—To have one great family of students.
ROB PETERS—To be a polygamist.
GIBSON—To do nothing.
PROF. BAKER—Spectacles that won't slip.
STOKES—"Emilee, my Emilee."
PROF. DOLLEY—To be a Roman.
HOAR—Mark Twain, II.
YOST—To jilt Madeline.
HARDY—To fiddle.
HESLET—To be a modest young lady.
ISAACS—? ? ? ? ? ?
PROF. GENTRY—To be able to eat Sprague's cooking.
DAISY GLENN—A humorist (mild sarcasm).
BREW BAKER—To Turner (joke)
EATON—To be a clown.
GUY DEWHIRST—To be a proper gentleman.
G. PESOLD—A gay time.
B. MARKMAN—To grab the world, and choke it.
WINTERS—To be choked, by Bess.
PROF. THRALL—To flunk us all.
PROF. NEW—If he only knew!

Married Club

Song—"When I was single, etc."
Club Colors—Blue and Gray.
Club Flower—Crab apple blossom.
Yell—"Rah! Rah! Freedom."

Members.

Douthit, Landis, McPherson, Lamp, Seerist, McKnight, Hallam, Wiggins, Myers.

Going to Be's.

Yost, Stokes, Simmons.
Crisp, Sonner, Peters.

Would Be's.

Winters, Wait, Wilton.
Warren, Markman, Petty.

Notice!

If any others desire to enter this club, please do so at once for the list is a limited one. Hand your name to President Hallam and your matriculation fee to Treasurer Peters.

Pass-word—Dough rollers and flatirons.

A Song of McKendree

How dear to my heart are the scenes of McKendree
When fond recollections present them to view.
The campus, the buildings the sweet faced professors
And all the loved ones which my college days knew.
There were breaking of locks there was stealing of organs
There were programs of hops and masquerade balls
But the Dr. De scored them, with words that were searching
And made the rough bunch look exceedingly small.

How dear to my heart was the spooning of students,
On campus, on streets and cemetery walks
What though there was kissing and actions imprudent
We cared not a whit if the people did talk.
There was Stokes with Miss Sonner, Miss Shafer with Graham,
Miss Lukey with Wilton and Miss Foulk with Yost.
There were dozens of others whose names are not mentioned
Who, confirmed college catters, were Mc's. proud boast.

How dear to my heart were the examinations
Which the loving professors oft brought to view,
I took those exams. with extreme trepidation
And signing my name, quickly made my skiddoo
My grades were completed, my standing was taken
My credits so low that I felt like a fool
The faculty told me they thought I was faking
And perhaps I had better quit coming to school.

There was a little girl named Elsah,
"I love you," the fellows all told hah.
They came every night
They would turn down the light,
And holdah! and holdah! and holdah!

Journalism Fraternity

Since the founding of the Mu Tau Gamma Journalistic Fraternity the success of the organization has been phenomenal. The membership especially has been on a steady increase, and is now strong enough to assure its permanency as a big college factor.

The meetings consist of lectures, essays, and short addresses by the members, after which there is a general discussion.

The fraternity solicits its members, and requires a unanamous vote to elect.

THE PRESENT OFFICERS ARE AS FOLLOWS:

R. G. Boster, ... President.
C. W. Hoar, ... Vice-President
S. W. Eaton, ... Secretary.
B. A. Rogers, ... Treasurer.

The rules of McKendree College at the dormitory are that if two persons, a lady and gentleman, are left alone in a room they shall have at least one chair between them. So, passing the reception hall one evening, Miss Sprague was horrified upon observing Mary and Alexander occupying the same chair.

Said she, "Mr. Alexander, I am surprised. Do you not know the rules of the college?" "Why-er-yes. Don't they say that if a fellow and a girl are alone in a room, they can have only one chair between them?"

A LYRIC OF THE DEEP.

My breakfast lies over the ocean
My dinner lies over the sea,
My stomach is all in commotion.
Don't talk about supper to me.

LOOKING N. FROM MT. PENNICK
LEBANON, O.

Rub-a-dub-dubs

There was a young Senior named Myers,
Who quenched love's smouldering fires
  By marrying early
  And now, growing surly,
Of our Senior meetings soon tires.
  (And runs for the 3:30 car to Belleville yet.)

It was a smart Senior named Yost
Who was not so easy to roast:
  If you'd say "Madeline"
  He'd ne'er give a sign,
But would seem quite as deaf as a post.

There was a young fellow named Stokes
Who was a most miserable hoax:
  On Emilee Sonner
  He sure was a gonner
To marry him, her he did coax.

Another young fellow named Hear
Was thought to be eternally sore,
  Cause he had a red head
  Said he wished he was dead.
And then he would have it no more.

'Twas a pleasant young Senior named Graham
Who often to people would sayum,
  "If I had my way
  Life should always be gay,
And I'd ride to heaven on hayum."

A preacher Senior, named Crisp,
Ne'er so weak-minded was as to lisp,
  But he did fall in love
  With his sweet Sadie dove.
That he did

There are Condrey, Stokes, Graham and Hoar,
Crisp, Myers, Isaacs, Yost and some more,
  Who are saying farewell
  To Mc's personnel,
Which leaves the old college quite poor.

Jack Spratt could eat no fat.
Miss Sprague could eat no lean,
  And so between them both
They licked the platter clean
  (We apologize to Mother Goose.)

One spoon for two,
  Oh! what fun,
But then you see
  You two are one.
  (Dedicated to Hartman and Ethel.)

"Oh! you are a lemon, Net."
  Lane said it just to tease her.
The maiden laughingly replied,
  "Then you're a lemon squeezer."

DRAMA

Dramatis Personnae: —Emilee Sonner, Heroine; Claude Newton Stokes, Hero; Church and Choir; Little Girl.

Emilee and Stokes meet alone in the vestibule of the church. Stokes stretches out his arms and Emilee rushing forward is gathered in. Song by the choir, "Gathering in the Sheaves." The church door opens. The church assembly and choir gaze upon the scene with intense interest. The freshies take notes. The minister announces, "Little children, love one another." Emilee and Stokes are about to kiss and are much absorbed. A little girl runs forward, moved by pity, and says "Here's my umbrella, use it."

A Few Daffodils

If we had a raw chicken would Prof. Baker?

If Dr. Harmon is old is Prof. New?

If Funny Wolf was late for Ag. class, would Crosthwait?

If Bert Petty were detained would Bernice Wait?

If Sam Eaton stole her candy would Mary Ball?

If Webb makes Dopheide would Brewbaker?

If George is Cummin, Gale Mae.

When Hays is late for English is Charles Early?

If Ethel Morgan should drown would Harvey Fisher?

If Rob Peters pitched would Stansfield

If Miss Johnpeter were sick would Ernest Walker?

Sometimes Paul Shields Miss Waggoner.

If Eathel Morgan did not go with Cummins, would Miss Gentry to?

If Miss Britton's shoe came untied would Wallace it?

If Ernest had two, would he want Moore?

If this is West, is Edgar North?

If Wolf sat between Miss Olive and Miss Sylvia Cover, would he be warm?

If Bundy should attempt to go with a girl, would Heslet him?

Who walks with such great dignity
Denoting future sovereignty?
The Senior!
Whose language is so up-to-date?
Who to his class is never late?
Whose every act is quite sedate?
The Senior!
Whose every word is very law?
Whose judgment is without flaw?
The Senior!
Who doth the Freshmans' course define?
Who also Sophomores refine?
Who keepeth the faculty in line?
The Senior!
